UNDER CONSTRUCTION — Workmen emplace tile along the E. Fourth St. side of the new Cameron Public Library. The 4,000-square-foot contemporary structure probably will be completed by early spring,

as winter rains have interrupted present work. This view of the library shows the northwest corner. Vertical pieces of lead glass will be installed between the columns. The brick is charcoal grey.

In between, his experience somehow must make him jump with bumps of experimentation that wheeze to some frail whisp of final frustration.

It learns that insight is not in-sight enough and wonders why he has the gift in the first place. And wondering, he either bellows the charge, like a fool, and dashes himself upon a brief heroic, soon forgotten, or acquiesces to a dream-like mendacity which is reality and coasts the rest of the way.

It used to be character, now its foolishness. We wonder what they call it in Vietnam.

Wisdom says that all these variations must be considered, that a course is run and a new course follows.

If so, wisdom also must require optimism and must value continuity. That must be why a son or daughter brighten a horizon one only sees, not sees over. It is their turn, hopefully, to inch along from impass to impass in the abandon of youth and caution of adulthood.

Wisdom dictates we look ahead, which ever way that is.

Hays Serving Aboard Carrier Ticonderoga

USS TICONDEROGA
Airman Apprentice Chester E. Hays, USN, son of Mr. and Mrs. Chester Hays of 103 East 13th St., Cameron, is back on station off the coast of Viet Nam aboard the attack aircraft carrier USS Ticonderoga, after a nine-day visit to Yokosuka, Japan. The visit gave Ticonderoga's crew and air squadrons a rest after two months of operations with the Seventh Fleet in the South China Sea.

The primary task of the carrier is operating as an instrument of U.S. National Policy in the South China Sea providing air power for strikes on specific targets in Viet Nam in support of U.S. and Vietnamese forces.

Three aldermen are to be elected in the April 5 city election at Rogers, according to Mrs. George Richards, city secretary.

Mrs. Richards said filing deadline for the aldermen's posts is March 5.

Banquet To Honor Gridders Thursday

Bill Ellington, University of Texas assistant football coach, will be guest speaker at the annual Football Banquet at 7 p.m. tonight (Thursday) at the Methodist Fellowship Hall.

The annual fete will honor Yoe High gradmen and managers who participated during the 1965 season when the Yoemen won District and Bi-District Championships.

Ellington is well known to football fans throughout Texas and a popular sports speaker. He coached the Garland High School football team to the State Championship in 1955-1956 and was head coach at Amarillo for one year before accepting the assistant coaching position at the University of Texas in 1958. Ellington is a graduate of McMurry College in Abilene.

Another highlight of the event will be the crowning of the Yoe Football Sweetheart. Football boys have nominated four girls and the winner will be revealed during the banquet. Nominees selected are Diane Mikulec, Peggy Slovak, Sharon Darby and Nancy Schiller.

How Farm Programs Work

Interest, and perhaps misunderstanding, about the alternatives of the new Farm Program have prompted a program resume from the Cameron Agriculture Stabilization and Conservation Service.

Ed Laywell, of Cameron, chairman of the Cameron Chamber agriculture committee, explained part of the program before Chamber directors in a recent meeting. An additional invitation was extended to Alva Sanders, manager of Milam ASCS, to show additional comparisons of the new domestic cotton program, the feed grain program and Cropland Adjustment Program.

The following are from ASCS office computation, being applied at present for Milam County farmers, and serve only as examples of the alternatives under the three programs, voted on in late 1965 by Milam farmers.

DOMESTIC COTTON PROGRAM
On a farm having a 36.5-acre cotton allotment, the farm projected yield is 275 pounds. Producer plants acreage not diverted.

He has three alternatives:
ONE—Maximum or 35 per cent option: 12.8 acres times 275 pounds times 10.5 cents, equalling \$369.60 for diverting. Add to this figure a sum of \$613.90 (23.7 acres x 275 x 9.42 cents) for price support payment on planted acreage. A total of \$983.50 is received.

TWO—Middle or 25 per cent option: 27.4 acres will be planted. (23.7 acres x 275 pounds x 10.5 cents) equalling \$628.71 for diverting. Add a sum of \$613.90 (23.7 x 275 x 9.42 cents) for 65 per cent price support (domestic allotment). This total is \$768.61.

THREE—Minimum or 12.5 per cent option: 31.9 acres will be diverted. (4.8 x 275 pounds x 10.5

cents) equalling \$132.82 for diverting. Add a sum of \$613.90 (23.7 x 275 x 9.42 cents) for 65 per cent price support (domestic allotment). This totals \$376.61.

ASCS notes this example farm applies to all farms with the exception of a small farm having a 10-acre or less allotment or having a projected yield of 3,600 pounds or less. The small farms receive a double diversion payment. Diversion and price support rates are standard, but yields will vary from farm to farm, depending on soil productivity.

FEED GRAIN PROGRAM
On a farm having a 58-acre feed grain base, the farmer has a choice ranging between these examples:

ONE—50 per cent diversion option (maximum option): 11.6 acres or first 20 per cent receives no diversion payment. Diversion payment is \$445.44 (17.4 acres x \$25.60) plus \$344.23 price support on planted acres (29 acres x \$11.87) for a total of \$789.67.

TWO—20 per cent option (minimum): 11.6 acres diverted without payment. As in first alternative, up to 46.4 acres will be planted with price support on planted acres of \$344.23 on up to 50 per cent of base.

ASCS says payment rates vary according to the yield of the particular commodity and farm.

"Although there is no diversion payment on the first 20 per cent of the feed grain base, the acreage must be diverted. Diversion payment is made on any acres over the 20 per cent diversion up to 50 per cent," ASCS notes.

ASCS also notes on the feed grain program: "Price support payment will be made on any acreage up to 50 per cent of the base. Producers not participating in the feed grain program will

WRECK KILLS ROCKDALE MAN, INJURES TWO

A Rockdale man was killed and a Rockdale couple injured in a two vehicle crash Sunday night in Burleson County, just south of Milam.

Harry Hal McKinney, 57, of Rockdale was pronounced dead on arrival at Goodnight Memorial Hospital, Caldwell.

Mr. and Mrs. Charlie Alfred Mekolik, also of Rockdale, received emergency treatment at Goodnight Hospital for apparent lacerations before being transferred to Richards Clinic, Rockdale.

Highway patrolman Raymond Matter of Caldwell said the accident occurred on SH 36, nine miles north of Caldwell, at 7:40 p.m. Sunday. He reported that a tractor truck - trailer traveling south collided with a 1956 Ford Station Wagon traveling north.

Ray Howard Wellard, 30, of Waco was driver of the truck and Charlie Alfred Mekolik, 71, of Rockdale, was driver of the station wagon.

Mrs. Mekolik and McKinney were passengers in the station wagon.

Funeral services for McKinney were 10 a.m. Wednesday at Phillips and Luckey Funeral Home. See WRECK Page 2

C. MARKHAM DIES; RITES HERE TODAY

Calvin Markham, 54, owner of Markham Cleaners in Cameron, died in a Temple hospital early Wednesday morning.

Funeral services will be at 3:30 p.m. today (Thursday) in the chapel of Green Funeral Home with Rev. Anthony Thibodeaux officiating. Burial will be in Oak Hill Cemetery with Masonic graveside rites.

Markham was born in Holland, Tex., June 17, 1912, and moved with his family to Cameron when he was a child. He has owned and operated Markham Cleaners for the past 20 years.

In addition to his business, he was active in civic affairs. He was a member of the Cameron Housing Authority Board, a member and past Master of San Andres AF and AM Lodge, a member of the Knights of Pythias Lodge, a member, Chairman of the Board of Deacons and Treasurer of the First Christian Church. He was also a former member of the Cameron Rotary Club.

Surviving are his wife, Mrs. Calvin Markham of Cameron, one son, James C. Markham of Belton, his father, W. W. (Doc) Markham of Waco, two brothers, James Markham of Iowa City, Iowa, and E. B. Markham of Waco, one sister, Mrs. John Davis of Cameron, and three grandchildren.

Dr. Brown Reports On Title I Work

At Board Meet

Dr. Herman Brown, director of the CISD Title I program, last Thursday at a regular School Board meeting, reported excellent attendance gains due to the new program.

He reported that two teachers, Robert Maier, junior high science teacher, and Mrs. Lois Gunn fourth grade teacher, respectively, have assumed duties of director of audio-visual aides and evaluation and co-ordinator of reading.

Succeeding them are: Jack Ruzicka in junior high science, and Mrs. Joe Moehring, elementary teaching.

Dr. Brown noted that in the first 100 days of the Title I program, one of the first to be implemented in Texas, 5,316 half pints of milk have been distributed, 4,207 free lunches, 288 pieces of clothing, 31 medical exams and two hearing exams given, \$920 in student aid in notebooks, pencils and paper, and shoes where necessary. More than 30 teachers, workers and aides are employed under the Title I program.

He said attendance was 96.7 per cent for Latin students, which exceeded overall attendance and that attendance was higher in O. J. Thomas on one recent day than previous daily averages.

Supt. D. R. Dodson said, "The most striking thing about the Title I program's effect so far is the improved attendance."

And he said during the meeting that "school morale has improved greatly since the program was instituted."

Dr. Brown said that evaluation of the program would be feasible in April after it has been in operation for enough time to see its fuller impact.

Funds through the program have provided viewers, film strip machines, film strips, books, even texts for outside courses for exceptional students and a variety of classroom equipment unavailable before the Title I effort.

In other business at the School Board meeting, a school health program outlined by Dr. S. H. Richardson and school nurse Mrs. McClaren was adopted unanimously (see separate story).

Only change was phrasing in the part about "Students not having required immunizations may not be issued report cards until satisfactory evidence is received."

The Board also voted unanimously a \$250 per month lease-purchase agreement with the trust department of Citizens National Bank for the H. H. Sted-

Tragedy Strikes Family Again

Graveside services were held at 2 p.m. Monday for Ronnie Joe Harris, 9, and Marilyn Louise Harris, 8, who died in a fire that destroyed their home Saturday night.

They were the children of Mr. and Mrs. Davis Harris Jr., 1193 Vogelsang, and sister and brother of Randy Green Knight, Yoe High football player who died August 23 of heart failure following a workout.

No one was thought to be at home when neighbors reported the fire at 11 p.m. Firemen were alerted that someone might be in the house by the frantic barking of a dog tied in the front yard. Fire Marshal John Andres said the house was completely engulfed in flames by this time.

Benefit Retires Indebtedness On New Milano Church

Milano's First Methodist Church has paid off last indebtedness on its two-year-old sanctuary following a turnout of an estimated 1,250 people at a third benefit by four Grand Ole Opry singers.

A spokesman for the church reported that the two shows Monday night at Milano High School Gym grossed about \$1,500, most of which went to retire the church indebtedness with a balance begun for a church air conditioning system.

The first show at which Kitty Wells, Johnny Wright, the "Tennessee Mountain Boys," Bill Phillips and Ruby Wright appeared attracted a "standing room only" crowd. The 9 p.m. show drew about 300.

Last indebtedness of the original \$30,000 was retired with proceeds from the Monday night show, ticket sales and concessions, the spokesman said. The previous church sanctuary burned down in Milano about two years ago.

It was estimated that about \$4,500 had been raised or contributed through three guest appearances at Milano during the past two years.

Church spokesmen extended their appreciation to residents throughout Milam County for their support, the third time a major crowd has attended the church benefit in as many appearances.

School authorities rushed the student to St. Edward Hospital shortly after noon Monday where she received emergency treatment. A hospital spokesman said she would remain under observation at the hospital for several days.

CITATION — Lyngle D. Barnes, Jr., of Thorndale, is congratulated by August G. Kunz, Milam Selective Service board chairman, after presentation of a Presidential Citation for 15 years service on the county draft board. Kunz made the presentation Sunday afternoon at the Cameron Selective Service office. The Citation from President Johnson and a 15-year emblem both went to Barnes. Signers of the Citation included Col. Morris S. Schwartz, Texas Selective Service director; Governor John Connally, and Lt.-Gen. Lewis B. Hershey, National Selective Service director.

4 DIVISIONS AWAIT ENTRIES FOR 4-H, FFA

Junior Livestock Show officials report 20 entries have been received from livestock growers in Beecham, Milano, Thorndale, Rockdale and Cameron for the 29th annual Milam County show set for Saturday at the Cameron County press warehouse at Santa Fe and South Jefferson Streets.

John Batte of Cameron, veteran chairman of the show, said young growers who are 4-H and FFA members will exhibit their animals in four divisions: Beef, Dairy, Swine and Sheep.

Prizes and ribbons will be awarded to all entries and will be given on a point basis. Awards will be furnished by contributors in the area. The donors will also be eligible to win a beef steer for taking an active interest in the youth of Milam County, officials noted.

Judges for the show are Tex Stutz and Sam Kuykendall, two members of the Texas A&M Championship Judging Team, and Bob Gray, dairyman from Holland.

Animals to be entered in the show must be at the Cameron building no later than 9 a.m. Saturday.

The public is invited to the show which will get underway at 10 a.m. with the showing of dairy cattle and sheep in the morning. Beef and swine judging will be in the afternoon.

Heading the four divisions of the show are: H. L. McClaren, Beef Supt., Billy Harris, Dairy Supt., Henry Richter, Swine Supt., and Ed Laywell, Sheep Supt.

Assisting Batte are Dana Monroe, secretary - treasurer, Jerry Schiller, finance chairman, and Byron Wise, records.

The Milam County Livestock Show has grown each year from a small beginning in 1946 when there were only 3 entries. Since that time more youngsters in the county have become interested and today exhibit some of the finest animals grown in the state.

Mothers March To Open Local Drive For MOD Funds

The 1966 March of Dimes campaign gets underway here Monday when Cameron mothers join together to stage the annual Mothers March, according to MOD chairman Max McClaren.

Mrs. Griffin Burnett will head the Mothers March which will be held during the evening hours. Workers from throughout the city will be calling door-to-door in the residential area and persons wishing to contribute are asked to leave their porch lights on.

McClaren said this year's campaign has been broadened to include activities by Milam teenage groups in addition to the usual bucket brigades, athletic benefits, 42 parties and community supporters.

January 29 has been set for the annual Bucket Brigade. Members of the Cameron Rotary and Lions Clubs and the Milam National Guard unit will man stations in downtown Cameron. The brigade will be held from 7:30 a.m. until 3:30 p.m. under the direction of club presidents James Kohler, John Henderson Jr. and Sgt. Joe Lee Vybral.

Cameron teenage workers are planning a Discotheque. Heading the young people's group are Bobby Schiller, Madeline McClaren and Linda Richardson.

McClaren said the Rockdale teenage group, under the direction of Miss Evelyn Pearson and Penny Graves, have planned a skating party to help raise funds for the Milam March of Dimes drive.

Other Milam areas, such as Milano, Thorndale and Maysfield, are presently making plans for MOD benefits.

Anyone wishing to contribute to the "special gifts" drive is asked to contact chairman Albert "Red" Collins in Cameron.

Population Explosion

By 1970? - Not So

Says Finance Assoc.

WASHINGTON, D.C.

If you're worried about the population explosion-relax.

It may turn out to be just a fiasco.

The population in this country is expected to increase only 6.9 per cent during the next five years, according to the January issue of Finance Facts, National Consumer Finance Association's monthly newsletter on consumer financial behavior.

This is in comparison with a 7.7 per cent increase during the last five years.

In the coming years, the greatest increase, 17.3 per cent, will be in the 13 to 24 year age group.

Projected percentage increases in other age groups between 1965 and 1970 are: 4.1 under five years of age, 5.6 from 5 to 7 years, 6.3 in the 22 to 44 year olds, 7.3 in the 45 to 64 year olds and 7.3 who are 65 and over.

However, compared with the last five years, there will be a larger percentage increase in Americans under five years of age and between 22 and 44.

Farmers Union To

Charter 3 Counties

The state office of the Texas Farmers Union announced the chartering of three new Central Texas counties to add to its increasing growth of the organization in this area.

OUTDOORS IN TEXAS

It has been said that the mourning dove makes chumps out of chumps.

All of which gives some inkling as to the personality of this popular game bird.

Of course, there is a pun intended here, but the statement isn't far from wrong. Nothing can wipe the eye of a self-proclaimed shooting champ quicker than a fast-flying dove.

Yet, on numerous occasions I've seen rank beginners at the sport knocking birds from the sky when all the veterans were shooting and

cussing and generally getting themselves worked into a condition.

Nobody, to my knowledge, has determined exactly how a dove flies. But get on the ground and you'll find it almost impossible to shoot.

A hunter who lets one go simply hasn't a chance. He can't get his gun around enough to lead the dove and he's not fast enough to shoot.

An oldtimer once told me, "If I wanted to kill doves, I'd shoot where they ain't."

It has been said that the mourning dove makes chumps out of chumps.

All of which gives some inkling as to the personality of this popular game bird.

Of course, there is a pun intended here, but the statement isn't far from wrong. Nothing can wipe the eye of a self-proclaimed shooting champ quicker than a fast-flying dove.

Yet, on numerous occasions I've seen rank beginners at the sport knocking birds from the sky when all the veterans were shooting and

cussing and generally getting themselves worked into a delicious condition.

Nobody, to my knowledge, ever has determined exactly how fast a dove flies. But get one coming downwind under a full head of steam and it is almost a blur—moving so fast.

A hunter who lets one get past him simply hasn't a chance. He can't get his gun around fast enough to lead the dove and compensate for its rapid pace.

An oldtimer once told me that if I wanted to kill doves, I had to "shoot where they ain't."

Sometimes this almost seems to be true. It requires a seemingly ridiculous lead to bring one down. I've seen hunters bang away at the lead bird in a flock, only to see one of the tail-end doves come tumbling down.

Perhaps that's why the mourning dove is our most popular game bird.

It is hunted in many different ways.

Some people prefer tank shooting, waiting for the birds to fly to water late in the afternoon.

Others prefer field shooting, stationing themselves around the perimeter of a grainfield and catching the birds trailing back and forth overhead.

Still others like to pass-shoot doves, finding a regular flyway where they cross when going between their feeding grounds and water and back again.

There is one phase of dove shooting, however, that has been largely ignored. I'm talking about hunting them with decoys.

A few years ago the sudden splurge of dove replicas on the market created a mild sensation. Then almost as quickly it died out. True, decoys still are being used, but not near as many as there ought to be.

The mourning dove is a perfect bird to decoy. It is a gregarious bird that habitually travels in a pair or more, perhaps a flock of

two or three when one dove sits down in a dead tree, soon others drop in to keep it company. Put decoys out and you get the same effect.

Use of decoys doesn't necessarily mean that you hope to bring the doves right down in the tree, where you can potshot them while sitting idle on a limb. However, many dove hunters wouldn't consider this really unsporting. They claim you can't take advantage of a dove.

Real idea behind the decoy is to delay the birds, to bring them around for a shot, to beguile them into passing overhead rather than 100 or so yards away.

Many hunters have had very

good results when using these fake creations in conjunction with field shooting.

Others have had the maddening experience of flushing feeding doves, only to watch them disappear over the treetops and never come back where the gunner could get a second chance.

Decoys very often will lure 'em back, at least for the second time, and perhaps even again and again.

Pick out a dead tree near the field, a likely perch for doves. Put out a half dozen or more of the cardboard replicas. Then let someone spook the feeding doves.

As they rise from the field and pass overhead, you can bang

ROGERS NOTES

The Rogers Band Parents Club will meet at 7:30 p.m. Monday, January 24. Mrs. W. E. Henson, reporter, said that all band parents are urged to attend.

Mrs. Billie Synatzke, school district tax assessor-collector, will be in the central office the last two Saturday mornings in January to assist taxpayers. Her office hours will be 8:30 to 12 noon Jan. 22 and 29.

The education for Family Living Committee of the Rogers Parent

Teacher Association held its fourth in a series of meetings Monday night. Mrs. Elwood Ray was program chairman.

Theme of the program was "Look at Our Social Values." Film was shown followed by panel discussion. On the panel were Mrs. Ada Jean Coven, junior high school teacher, Stan Schermer, county-wide counselor, Jewel McIntyre, Bell County Juvenile Officer, Rev. Raym. E. Hall, pastor of First Baptist Church, Mrs. C. O. Gunter, a parent, Ray Schermer, student.

Mann To Receive BS Degree At SHSC

Robert L. Mann of Cameron will graduate from Sam Houston State College with a BS degree at the end of the fall semester January 3. Graduates will officially receive their degrees at the annual spring commencement on May 22.

Mann, son of Mr. and Mrs. Wayne Mann, Cameron, has accepted a position with the Fort Worth Star-Telegram. His wife, formerly Ann Bowman of Cameron, will continue her studies at Texas Christian University in Fort Worth.

OJT Bulldogs Win Finals In Local Tourney

Six boys teams and six girls teams participated in the O. J. Thomas third annual basketball tournament at OJT Gym Saturday.

OJT boys and girls and Caldwell's boys and girls teams played their way into the finals where the OJT boys defeated Caldwell 66-45 and the OJT girls team lost to Caldwell girls 23 to 17.

Caldwell's boys team was strong through the tournament defeating Blackshear of Hearne by 13 points, but the OJT Bulldogs sparked by the sharp shooting of Joe Whitfield, Johnnie Holloway and Larry Ray and the good ball handling of Frederick Kelly and M. G. Young proved too much for Caldwell.

Whitfield was high point man for Cameron with 21 points followed by Holloway who scored 19 against Caldwell.

OJT girls played a strong game against good ball handling on the Caldwell team. The girls team with J. Harris, M. Stephen and M. Johnson at forwards and H. Twines, R. L. Stephen and J. Lewis at guards, has won two runner-up trophies at tournament this year and is 2-2 in district play.

High point boy of the tournament was Joe Whitfield, OJT, with 31 points followed by Johnnie Holloway, OJT, with 21 points. High point girl was Carroll Johnson of Anderson High with 20 points followed by Dana Jackson with 20.

Pfc. Thomas E. Beathard (right) and his brother Pfc. Douglas W. Beathard are serving overseas with the U. S. Army. Thomas Beathard is with the 157 Quartermaster Corp in Viet Nam and Douglas Beathard left last week for Germany. He was formerly stationed at Ft. Sill, Oklahoma. They are the sons of Mr. and Mrs. David Beathard, Rt. 1, Milano.

Yoemen Score 37 To Defeat Hearne Friday

By Eddie Huntsman

The Cameron Yoemen evened up their district record last Friday night with a win over the Hearne Eagles, 37-36, at Yee High Gym.

High point man for the Yoemen was James Vogel-sang with 11 points, which came on 3 field goals and 5 free throws. Mack McKinney was the second high scorer with 9 points, which came on 3 field goals and 3 free throws.

The Eagles were led by Smith, who had 10 points on 4 field goals and 2 free throws. Johnson was the second high man with 6 points, which came on 2 field goals and 2 free throws.

Livestock Price Prospects Good For 1966, Says A&M Specialist

COLLEGE STATION — Prospects for livestock prices for the year ahead are bright, Ed Uvacek, livestock marketing specialist at Texas A&M University, says lower cattle numbers, a smaller calf crop, and a reduced slaughter level should hold fed cattle and feeder calf prices above 1965 levels.

He adds that 1966 may well be one of the most profitable years since the early 1950's for sheep and lamb producers.

The specialist believes hog prices during the first half of 1966 will again establish new highs. A large production expansion of the spring pig crop could provide an over-correction on the number of hogs and force price levels during the last half of 1966 to levels slightly below those of last year.

Uvacek says the inventory count of cattle and calves on farms on January 1 is expected to be down about one and a half million head from a year ago. He believes herd liquidation to continue through 1966 but at a slower rate, thus reducing the number still further on next January 1. This, he adds, may well be the end of liquidation and the start of another build up phase for a new cycle.

He noted that cow slaughter in

1965 was up about 26 percent over 1964 and was a major factor in the January 1 inventory reduction figure. But there were other factors which added strength to the 1965 market; steer slaughter was down and heifer slaughter up and slaughter weights of both steers and heifers were down, thus reducing the total production of beef.

Uvacek expects cow prices to seasonally move higher into the spring and then slack off during summer and fall. The demand for replacements plus lower levels of imports strengthened cow prices during 1965, and will continue to influence 1966 prices, he says.

mean, milk and eggs by sucking blood from animals, transmit diseases and cause loss in energy from annoyance. Recommended insecticides will control the major external parasites.

LICE

Four species of lice suck blood from cattle and one feeds on hair and scales. Cattle infested with lice have a rough, coarse appearance and do not gain normally. Lice are more abundant during winter and spring when the hair is long. Presence of lice on cattle are indicated by cattle rubbing their neck and shoulders against trees and other available objects.

CONTROL

Spray cattle with Malathion, Methoxychlor, Ronnel, Ruelene, Sevin or Toxaphene at a .5 per cent spray. Further instructions on the proper use of these insecticides on livestock and poultry are given in the guide MP-691, Texas Guide for Controlling External Parasites of Livestock and Poultry, available at the county extension office.

BLACKLEG IN CATTLE

Several reports were received concerning the loss of cattle from Blackleg. This disease can be prevented by following a vaccination

program. The disease is most common among calves about 4 to 6 months old, however, losses can occur in cattle up to a year old or older. The infection is caused by spores that survive in the soil for a number of years. The germs are believed to gain entrance to the body through small punctures of the mucus membranes of the digestive tract or through wounds in the skin.

Dehorning, castrating, branding and marking information is discussed in the USDA bulletin No. 214. Anyone interested may write or pick up this bulletin at the county extension office.

Since cattle, swine and poultry contribute a sizeable sum of money to the county's economy, animal health problems should be discussed with local veterinarians.

PLANT or RELEASE your COTTON ALLOTMENT

Deadline for Releasing cotton allotments this year is January 28th.

Deadline for Requesting cotton allotments this year is January 28th.

For the first time -- Cotton Allotments have an actual CASH VALUE which may increase in value each year, depending on your Trend.

The CASH VALUE of your acres are determined by the Yield of your farm.

The TOTAL VALUE will be determined by Total Allotment and Yield.

Loss of Allotments NOW mean a CASH LOSS in income to your farm.

YOU CAN HOLD YOUR COTTON HISTORY ONLY BY PLANTING OR RELEASING -- SAVE YOUR COTTON ALLOTMENT -- RELEASE IT BEFORE JANUARY 28th OR PLANT IT.

REMEMBER: Looking at past Cotton Programs, it may be well to consider that FUTURE ALLOTMENTS may follow the TREND on your farm and be figured on only ACTUAL PLANTED ACRES - and - any acreage diverted more than the 12 1/2% mandatory required might get lost in the TREND shuffle. There is a big difference in protecting your Farm History and protecting your Farm Allotments. Play safe and release every acre you do not intend to plant, the value of your farm and cash income is involved under the present Cotton Program this year.

Complex Made Understandable

When an expert discusses a complex subject, it somehow becomes easy to understand.

Dr. John R. Stockton, director of the Bureau of Business Research, University of Texas, presented a survey to Cameron Lions on business prospects for 1966, a year expected to be at least as good as a record '65.

The ease of his presentation made a

brief discussion of Keynesian and Adam Smith economic theories most understandable.

We were honored to join with the Cameron Lions in hearing the presentation of this soft-spoken man of letters and statistics (his field).

It is no wonder that such men, with the success of application of Dr. Stockton, are so effective.

- OTHER OPINIONS -

Game of ten best

On today's Education Page a number of teachers have volunteered to nominate 10 books they believe young people should read before college.

Brave men. They will be criticized for the titles they include; they will be criticized even more for those left out. For, as their diverse lists suggest, this is not an age in which there exists a community of taste.

Taste today is so disputed, so ephemeral, so replaceable a value that a maker of reading lists seems—in Cyril Connolly's words—to be "sticking paper flags in a dissolving sand-castle." And yet never were there more reading lists—from colleges, from libraries, from committees for good reading lists. They appear to multiply as certainty of taste diminishes.

Too often, we submit, these lists deserve to be washed away, like sand-castles, by the next change of tide. Too often they spring from fashion rather than from the heart. Too often they are compounded erratically of ancient sure things and modern long shots. Too often they are chic displays of permissiveness—more concerned to show

what they will tolerate than what they like.

When adults give the young advice on reading—when adults give the young advice on living—it is almost as if the supreme passion today is NOT to influence.

Reading lists all too regularly are like beautifully elaborate road maps that carefully disclaim responsibility for the destinations.

We maintain, on the contrary, that makers of reading lists are moralists, willy-nilly. That by their very function they are saying, just as naively as you please: It is important to read noble or amusing books because noble or amusing books make noble or amusing people. At least they help.

We go so far as to argue that from the reading a man recommends, we should be able to deduce what kind of man he wants his son to be—right down to a preferred style for his sense of humor.

Reading lists are the infiltration devices of idealists. And what idealist—including those on today's Education Page—would really want it any other way?

One of Our Valued Customers...

Among the more than 425,000 valued customers served today by Texas Power & Light Company, there are hundreds of people who can recall the time before electric lights were in general use.

A little more than three decades after Edison perfected the incandescent bulb, TP&L built, in 1913, the first transmission line in Texas.

Since that time, there have been notable advances in the techniques of producing and supplying electric power and in the development of electrically operated devices which make living easier, more comfortable and more pleasant.

All of this has come about under America's free enterprise system, of which the electric industry and TP&L are a part.

Deadline For Tax Payment Is Near

By Vern Sanford

AUSTIN—Deadline for payment of the poll tax—the "ticket to vote" in 1966 elections—is closing in.

Democrats, Republicans, liberals and conservatives are emphasizing this in the wind-up of their voter registration drives this week.

All sides apparently are concerned that some of their supporters may fail to qualify. This because of confusion over the federal suit to ban the poll tax.

Suit has not been decided. Atty. Gen. Waggoner Carr and State Democratic Executive Committee Chairman Will D. Davis issued reminders that federal judges who will rule on it have advised Texans to pay their poll taxes, since they will reach no decision before January 31.

Carr noted these requirements for voter eligibility in 1966:

—Those who want to vote in all primary, general or special elections for nomination of candidates (including state and local), or on bond issues, constitutional amendments and other propositions—and who hold no exemptions—must pay the \$1.75 poll tax no later than the end of the month.

—Persons over 60 must obtain certificates by January 31.

—Those turning 21 years of age can secure exemption certificates up to 30 days prior to an election, as can new residents just completing their residential eligibility by election date.

—Free poll tax receipts are available through January 31 to qualify voters to cast ballots for federal officers (U.S. senator and congressman only this year).

Apparently, 1966 will see lots of political action—and the voter without a poll tax will be on the outside looking in.

GOPS TO RUN SLATE

Texas Republicans will field

virtually a full slate of candidates for statewide offices, according to National Committeeman Albert B. Fay. But they have pledged the bulk of their finances to the reelection of Sen. John Tower.

Republican executive committee members recently adopted a 1965 budget of more than \$1,500,000. They earmarked 40 percent for Tower's campaign.

Fay said the GOP will stick to its strategy of "selective" filing in local and district races and will invest its money where there's best chance of victory. Republicans see chances to capture Houston, Dallas and Panhandle congressional places and to pick up several state legislative posts.

SUITS FILED

Two would-be candidates for attorney general had to file mandamus suits with the State Supreme Court in an effort to get their names on the May 7 Democratic primary ballot.

SDEC Chairman Davis rejected applications of State Sens. Franklin Spears of San Antonio and Galloway Calhoun of Tyler, maintaining there is a question as to their eligibility.

He cited a constitutional provision that legislators are ineligible to hold offices they created or raised salaries of during elected legislative terms. Pay of the attorney general was raised by Legislature last year from \$20,000 to \$22,500 annually.

Both claim their senate terms expire before Jan. 1, 1967, when new attorney general's term begins. Davis says the Senators' terms extend until January 10, when next Legislature convenes. Supreme Court set arguments in the Spears case Wednesday (Jan. 19). Spears was elected in 1962. Some feel his case is "easier" than that of Calhoun who was elected to a four-year term in 1964 — although reapportionment of

Legislature cut all Senate terms short.

WASTE DISPOSAL AGENCY

Texas State Department of Health was designated by Governor Connally to receive grants for surveys of solid waste disposal practices and problems under the federal act.

State and local governments can secure technical and financial assistance for planning and development of solid waste disposal programs. Up to 50 percent of survey costs will be paid by grants.

Act seeks to encourage research and development of new and improved methods of economical waste disposal.

BATTLE FRONT INSPECTION

William H. Crook, Southwest Region director of the Office of Economic Opportunity, is making a tour of the state to inspect the success of the War on Poverty. He is accompanied by Walter Richter, state OEO director appointed by Governor Connally to act as liaison between the federal office and the state in the poverty war.

AG OPINIONS

Attorney General Waggoner Carr has held that:

—A court may, without jury intervention, and upon finding a defendant guilty of a misdemeanor, place the defendant on probation if all other requirements of the misdemeanor probation law are met.

—Where a commissioners court changes the boundaries of the precincts, to become effective Jan. 1, 1967, the precinct residence requirement for running for county commissioner in the 1966 elections is to be determined with reference to the boundaries as they will exist.

In another opinion, Carr clarified requirements for paying witness fees under the new code of criminal procedure. Legislature has appropriated funds for payment only in felony cases.

APPOINTMENTS

Gov. John Connally named former State Rep. Wayne Gibbens of Breckenridge as an administrative assistant to serve in a new division of state and federal affairs in Washington.

Gibbens served Eastland, Shackelford, Palo Pinto, Callahan and Stephens Counties in the Legislature.

Connally also named John McKee of Dallas, Hugo Loevenstern of Amarillo and Dr. John Stockton of Austin to new terms on revived Committee on State and Local Tax Policy.

OLD PHILOSOPHER

Sage Not Too Much In Favor Of Speeding

Up Congress' Present Method Of Voting

State Library director, and Heart-Congress hadn't anymore than gotten underway last week when I found a copy of The Houston Chronicle with an article in it—if you're wondering where I found it, it was spread out by the wind against the back screen door and when I went out I didn't even have to bend over to get it, just sort of wipe it off my face—which already was complaining about the slowness of Congressmen.

According to it, Congressmen spent too much time answering to their names on votes and quorum calls.

"In an age when electronics allows us to take pictures of Mars and transmit them over 134 million miles of space," the article said, "The House spent five entire workweeks in less than ten months last year answering, in turn, to 435 names, deliberately intoned by two clerks a total of over 240,000 times."

This horse-and-buggy process of

will H. Young, University of Texas assistant library director, were appointed co-chairmen of the 19-member committee for the first Texas Governor's Conference on Libraries, scheduled for March 23.

House Speaker Ben Barnes appointed Reps. Willis J. Whitley of Houston, Don W. Cavness of Austin, Jack Crain of Nocona, and Dr. Ann Hughes of Dallas and French M. Robertson of Abilene to an interim committee to investigate and study the Housing and Physical Care of Criminally Insane Persons.

Barnes also appointed Reps. Forrest A. Harding of San Angelo, Ace Pickens of Odessa, Ralph Scoggins of El Paso, Honore Ligarde of Laredo and Billy H. Williamson of Tyler to a committee to study the priority of liens in favor of the state to secure payment of all taxes levied under the Revised Civil Statutes of Texas, 1925.

Lt. Gov. Preston Smith named to Citizens Advisory Committee to work with Texas Legislative Council on study of services for deaf Dr. W. P. Anthony of Fort Worth, George D. Holland of Lubbock, L. T. Johnston of Austin and Louis B. Orrill Sr. and Don C. Pettingill of Dallas.

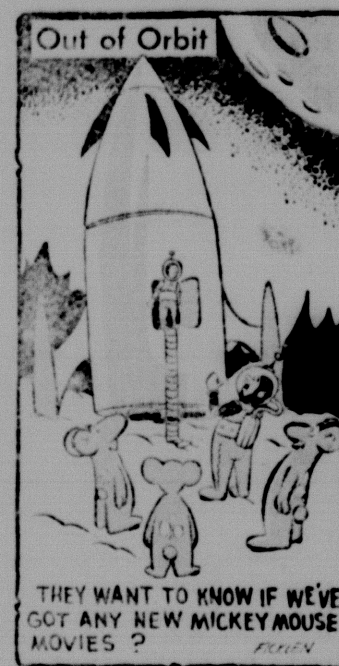

passing laws is outrageous in this modern day, the article went on, arguing that electric voting machines and such things are long over-due in Congress.

Well now I'll tell you. There's no doubt about it, there is a faster way to vote than having 435 members of Congress answer ye or nay when a clerk calls their names, but the way I look at it, Congress is already passing more laws than we can handle, and it's possible what this country needs is not faster voting but slower clerks. No telling how many laws we could have missed last year alone if the House clerk had been just a little tongue-tied.

Speed isn't everything. There are people who are dreaming now of the day when airplanes will be so fast you can get from New York to Los Angeles in 30 or 40 minutes. Leave New York after breakfast, they say, fly to Los Angeles, and be back home for lunch. I guess this is all right, but for years now I've had breakfast and gotten hungry again in time for lunch without ever having to leave this farm. Any time I have to travel across the United States and back to eat lunch, I'm going to see a doctor.

Yours faithfully,

J. A.

How do you measure a bargain?

In terms of cost and value, today's telephone service is a real buy for the money.

Cost: Last year, there were three statewide reductions in the cost of Long Distance telephoning for our Texas customers. And thanks to the cut in federal excise taxes, it costs even less today to call anywhere—local or Long Distance.

Value: Nothing else can do what your telephone does. It puts wings on your words and sends them around town or around the world, quickly and easily. It saves steps, time and money for you. And it's a growing bargain—today you can call more people and more places than ever before.

Conclusion: Your telephone is a bargain. Use it for all it's worth.

A MATTER OF TRUST

What did you buy today? A pack of gum, a carton of milk, maybe a prescription? Tell the truth—you hardly gave them a thought, did you.

You trusted. You staked your purchase on the maker the package, the place where you bought them. Perhaps you knew from experience that you would get just what you wanted when you saw the package. The maker's reputation stood behind the label and the brand name.

And the prescription? More than likely you trusted your pharmacist—his knowledge, skill, and quick service became very important to you. A good reputation for reliability is something we prize. To keep it, we must earn it—every day.

Next time, for prompt prescription service, call on us.

TAKE YOUR PROBLEMS TO CHURCH THIS WEEK

Millions Leave Them There!

"HI-YA PODNERS"

"Startin' out on a round-up or are you practicin' steer tyin' for next week's rodeo?"

Children are quick to impersonate the characters they see in their favorite sports, movies or on T. V. programs. They easily learn the mannerisms, speech and dress of those who interest them. This faculty can prove beneficial, or again it may prove harmful.

Because of their aptitudes, when tempered with the proper degree of restraint and guided in the right direction, they may be made to understand that just as play exercises the body, attendance at church exercises the mind and character. They can easily be made church conscious and learn to enjoy its services. They will hold on to its teaching for the rest of their lives. As careful attention should be paid to their moral and spiritual education as to their school training. They can learn of, and be led to have the desire to follow in the steps of righteous and noble people of this and preceding generations. A parent or guardian can do no greater service for a child than that of making attendance at church an important part of his or her weekly training.

IRS Answers Tax Questions

(Ed. Note: This column of questions and answers on federal tax matters is provided by the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.)

Q - My refund was held up last year because you said you couldn't read the name on my return. Why was this a problem if your ADP works on numbers?

A - Correct social security numbers are essential to the ADP system but we also use names in the ADP system. Your experience points up the necessity to print or type your name at the top of the tax form.

When we have the right number on a tax return but the name is wrong or illegible they won't match up in the system. This insures that only your returns, payments, etc. will be recorded in your account. When either the name or account number fails to match our records we have to ask the taxpayer whether the spelling is correct, the name has been changed, or the number is correct. As a result, there is a delay in the processing of the return and any refund due.

Q - My son went to work last fall after his graduation. Can we still claim him as a dependent? He is unmarried and lives at home.

A - If you have provided more than one half his support for the year, you may be able to claim him as a dependent. In addition to this support test, if he earned \$600 or more during the year, then he had to be under 19 at the end of the year, or else have been a full-time student for some part of each of 5 months during the year.

Q - I paid my tax and now I get a bill for it. Why is that?

A - Your payment could have become separated from your return or the payment might have arrived after the day it was due.

To clear this up, write the office which sent you the bill and give them full details on your payment (date, amount, purpose, etc.). Be sure to give your social security number and to print your name when you write. If you paid by check you should also furnish the number which you will find stamped on the face of your cancelled check. This is the same number given to your return and will be of great help to us in locating it.

It's a good practice when making a tax payment to write your

social security number, as well as your name, legibly, on the check or money order.

Q - Our medical expenses should be well over 3 per cent of our income. Can you tell me if we can deduct the full amount of our expense that we have been billed for or just what we have paid so far on these bills?

A - Only the amount you actually paid last year should be used as the basis for figuring your medical expense deduction. Remember to deduct from that total whatever reimbursement or insurance, etc. you received for these expenses.

Medical expenses which exceed 3 per cent of your adjusted gross income will be deductible. However, only medicine and drugs over 1 per cent of your adjusted gross income can be included as a part of those medical expenses. If you or your wife are 65 or over, these limitations do not apply to either of you.

Q - What can be deducted by salesmen for the cost of operating a car?

A - You may be entitled to deduct 10 cents a mile for the first 15,000 miles of business use and 7 cents a mile thereafter if you qualify, or you may deduct the actual cost of operation including depreciation. Of course your car travel must be an ordinary and necessary business expense. These rules are explained in more detail in the 1965 instructions.

Q - I received unemployment benefits from the state last year. Are they taxable?

A - No. State unemployment benefits are not taxable and do not have to be reported.

Q - I have several W-2 forms since I worked for several people last year. Should I send all of them with my return or can I add them up and give you the totals?

A - You should file Copy B of all your W-2's with your return, although only the total need be entered on line 17a of your Form 1040. Failure to do so will hold up the processing of your return and any refund that might be due you.

Q - I changed jobs last year and now find myself driving about 30 miles a day to get back and forth to work. Can I deduct 10 cents a mile for this driving?

A - No. Commuting to and from work is a personal expense and not deductible.

Q - I frequently buy food which I give to my neighbor. They have

4 kids and the husband has been having a hard time finding steady work. Can I deduct what money I spend for them when I fill out my return?

A - Certainly your gifts are very charitable, but the law does not permit gifts to individuals to qualify as tax-deductible contributions.

Q - This is the first year I've ever filed a return. What figure on the W-2 should I report as income? The amount I received before taxes were withheld, before Social Security or what?

A - Use the figure given on the W-2 as "wages paid subject to withholding in 1965" under "Income Tax Information." Add any amount that appears in the box "Other compensation paid in 1965," and report the total on your return, plus any other taxable income you may have received such as tips, interest, dividends and salary from other employers.

Q - I was married last year and we were fortunate enough to receive some very nice wedding gifts. Are they taxable on my income tax return?

A - The gifts themselves are not subject to income tax, although any income from them may be. However, if someone gave you gifts worth \$3,000 or more during the year, the giver has to file a federal gift tax return and pay any tax due.

Q - Is the retirement income credit the same this year?

A - No. The rate used to compute the credit is 15 per cent for 1965 income compared to 17 per cent last year. This is to keep in line with the reduced income tax rates for 1965. For an explanation of how to use this credit write your District Director for a copy of Document 5018, Retirement Income and Credit.

HORSTMANN BROTHERS

THE FAMILY LAWYER

Tattletale Footprint

Police, investigating a murder, found the bloody print of a bare foot on the victim's bathroom floor. This print eventually played a vital role in convicting the killer, by placing him—unmistakably—at the scene of the crime.

Similar use has been made, more often, of palm prints. And most often, of course, of fingerprints. What all three have in common is a highly individual set of markings, made by the pressure ridges that corrugate the skin.

There is nothing new, at least with regard to fingerprints, in the realization that the markings are distinctive. Various peoples of the world probably knew this even before the time of Christ.

What is new is the development of classification systems that make fingerprints easy to compare. This development, along with improved techniques for obtaining prints, has made fingerprinting a preferred method of identification all over the world.

Is there any chance that two people will have the same fingerprint pattern? One scholar calculated that duplication would occur once in 64 billion prints.

But later studies call that far too cautious. Recently a fingerprint expert estimated that duplication is not likely to occur in 10,000 years. Up to now, of course, not a single duplication has ever been found.

Besides the virtue of individuality, prints also have the virtue of permanence. A person's print pattern is fully formed three months before his birth (Mark Twain called it a "natal autograph"), and remains unchanged until after his death. Although the print may

vary in size, just as the person does, the pattern itself stays the same always.

So sophisticated is fingerprinting today that even a part of a print may be enough to establish an identification. As a rule, experts figure it is sufficient if the suspect's prints and the incriminating prints are alike at 12 points of the pattern.

But if they should differ at even a single point, then the message is equally clear:

This is positively not the right man.

Dinner Will Honor Schiller At Caldwell

The citizens of Burleson County will hold an appreciation dinner for Representative Milton Schiller at 7 p.m. Feb. 3 in Caldwell. The dinner will be held at the American Legion Hall.

Schiller, who is presently a member of the Texas Legislature, is serving his second term from Dist. 45, Burleson, Milam and Robertson Counties. When the Legislature re-districted the state in the 59th session, Burleson County was dropped from Schiller's district, and Falls County added, because of the needed population increase for each representative.

"Although Rep. Schiller will not represent Burleson County directly, we know he will continue to make a great contribution to all of Texas in the future. We are honoring him on this occasion in grateful recognition for his service in the past and recommend him to the people of Falls County and to the rest of Dist. 27," said Mayor Steve Shiller of Caldwell who is chairman of the event.

"We are planning a great party with Speaker Ben Barnes, other high state officials, many of Schiller's colleagues and their wives here for the occasion. We are also inviting the people of Falls, Milam and Robertson Counties to help us say 'Thank you,' the dinner chairman stated.

Tickets for the dinner will be available in all of the cities of Burleson, Falls, Milam and Robertson Counties.

APPLICATOR FOR COTTON

A machine for applying systemic insecticides to cotton plants has been developed by scientists at Texas A&M University. The machine uses twin, rotary nylon brushes to apply the insecticide near the base of the plant's main stem. It may also prove adaptable for applying fungicides, plant hormones or defoliant to cotton. B. G. Reeves, Extension cotton ginning and mechanization specialist and Dr. R. L. Ridgway, A&M based entomologist for Agricultural Research Service, developed the machine.

GERMANY
Army First Sergeant Edwin H. Kurtz, son of Mr. and Mrs. Edwin A. Kurtz, Route 1, Cameron, is participating in Exercise SILVER TALON, a 15-day field training exercise in Germany ending Jan. 20.

Purposes of the exercise are to provide the 3d Armored Division intensive training in command and control procedures against an aggressor force, and to further train the division to support itself logistically. Approximately 22,000 troops are participating in SILVER TALON, including other units of the Seventh U. S. Army and the German Army.

The exercise is part of the year-round training program the 3d Armored Division conducts to insure maximum combat readiness.

First Sergeant Kurtz, who is serving with Troop D, 3d Squadron of the division's 12th Cavalry, entered the Army in 1948 and was last stationed at Fort Hood.

Boss Must Give W-2

Form By January 31

Employers, Internal Revenue Service has a reminder for you — Employees should receive two copies of a Withholding Statement, Form W-2, on or before Monday, Jan. 31.

A. P. Andrews, administrative officer of the Internal Revenue Service at Temple, said, "This statement shows the total wages paid and the income tax and social security tax withheld if any, during the calendar year 1965."

Total wages shown on an employee's W-2 must include amounts received as sick pay. Sick pay is not required to be shown separately.

If it becomes necessary to correct a W-2 after it has been given to an employee, a revised statement must be issued and marked "corrected by employer."

SELF ANALYSIS QUIZ

Who Is More Likely To --- A Man Or A Woman?

by Jane Sherrod Singer

Men and women differ in their reactions in any one given situation. While there are no iron-clad rules, can you judge which sex would be more likely to react in the way described in the scenes described below?

1. A man and his wife take a trip abroad. One of them wants to visit a typical native restaurant, but the other wants home food. Which wants to visit? Man Woman
2. "Well," said the doctor, "you certainly are having a lot of accidents. Why aren't you as careful as your mate?" It is likely the doctor was speaking to the Man Woman
3. On a trip, a couple realize they are lost. One wants to stop and ask, the other wants to find the way without help. Who wants the information? Man Woman
4. In the foyer of a restaurant there is a large mirror. Six men and six women file by. Which sex is more likely to stop for a look into the mirror? Men Women
5. A couple have been going together for sometime but are suddenly separated by distance. The one who will usually be first to lose interest in the other party is the Man Woman
6. Who is the more demanding and critical in a marriage? Man Woman
7. A group is discussing a recent book. One member says that it seems unlikely, according to reviews, that it will become a best seller. Another person says, "I feel sure it will. I thought it was a marvelous piece of writing. Just give it time." Who made the statement? Man Woman
8. "My, what a lovely birthday party. It hardly seems possible though that I'm thirty-nine," said the guest of honor. "No, it doesn't," said another guest. "We were born the same year, and I'm forty one." The person who lied about age was likely a Man Woman

- ANSWERS:
1. WOMEN, according to surveys, are more adventurous about trying new foods and new restaurants.
 2. WOMEN, according to Dr. Leonard Carmichael of the Smithsonian Institute, are more accident-prone than men.
 3. WOMEN, says Dr. Jennings, do not have their pride to consider so they feel free to ask for information than men who are supposed to know their way around.
 4. WOMEN, on the basis of a number of studies, are more vain than men.
 5. WOMEN, according to studies at the University of Redlands, lose interest in the object of their attention when he is absent for a prolonged period of time.
 6. WOMEN reports the Michigan Survey Research Center, demand more from their husbands and complain more when they do not get their wishes granted.
 7. WOMEN are more likely to judge the reactions of a group on how she feels personally on a subject. The study from the University of Michigan goes on to state that men rely more on object evidence than feeling or intuition.
 8. WOMEN are vain about their age and often fib about it. This, however, is also true about men who "forget" how old they are. This deceit is shared equally between men and women.

Sommers Appointed

Asst. Bank Cashier

Bill Holt, president of the Bank of Commerce in College Station, has announced the election of Stanley Sommers as assistant cashier at the regular meeting of the bank board of directors on January 11.

Sommers, son of Mr. and Mrs. Edward Sommers of Cameron, is a 1962 graduate of Yoe High School and has been employed by the Bank of Commerce since January, 1965.

He is married to the former Nelda Parker, daughter of Dr. and Mrs. J. R. Parker of College Station, and was previously employed by the First National Bank of Cameron.
